SUMMARY*

I am a Python Django enthusiast with experience building web applications like e-commerce sites, social media platforms, and more. I have worked with Django frameworks and APIs, creating efficient and user-friendly solutions. I am eager to learn and excited to bring my skills to your team as a Python Django intern.

TECHNICAL SKILLS:

- **Python Django:** Experienced in developing web applications with Python and Django.
- **Git and GitHub:** Skilled in version control and collaboration.
- **RESTful APIs:** Proficient in creating and managing APIs using Django REST framework.
- **Front-end Technologies:** Competent in HTML, CSS, JavaScript, and Bootstrap.

SOME PROJECTS

Daily Mood Journal with Recipe Suggestions

<https://github.com/gaurabn1/Daily-Mood-Journal-with-Recipe-Suggestions>

- Developed a web application that allows users to log their daily moods and receive personalized recipe suggestions based on their mood entries.
- Utilized Python Django for backend development, HTML, CSS, and Bootstrap for creating a responsive and user-friendly interface, and DbSqlite for database management.
- Employed Git and GitHub for version control, facilitating effective collaboration and project management.

Social Media

<https://github.com/gaurabn1/Social-Feed>

- Developed a social media platform where users can create accounts, follow each other, post updates, and interact through likes and comments.
- Utilized Python Django for backend development, HTML, CSS, JavaScript for front-end design, and DbSqlite for database management.
- Employed Git and GitHub for version control, ensuring smooth development and collaboration.

Learning Management System

<https://github.com/gaurabn1/learning-management-system>

- Currently developing a comprehensive platform for managing educational content, including user registration, course management, and interactive quizzes.
- Utilizing Python Django for backend development, HTML, CSS, and JavaScript for the frontend, with RESTful APIs implemented using Django REST framework and viewsets.
- The remaining work involves implementing WebSocket functionality to enhance real-time interactions and communication within the system.

EDUCATION

Asian School of Management & Technology

Bachelor in Computer Application

GONGABU, KATHMANDU / NEPAL

Expected Graduation: 2025

ADDITIONAL

LANGUAGES

Nepali: Native

English: Fluent

Hindi: Proficient

INTERESTS:

Coding Competitions, Basketball, Football, Traveling
